

| <u>WTI Program</u>                          | <u>On Time Graduation Rate</u> |
|---|--------------------------------|
| Integrated Electronics Technology           | 83%                            |
| Computer Technology and Networking          | 84%                            |
| Heating, Air Conditioning and Refrigeration | 90%                            |
| Medical Assistant                           | 80%                            |
| Medical Insurance Billing and Coding        | 87%                            |

These numbers were compiled from graduates during July 1, 2009 through June 30, 2010 by dividing the number of students who completed the program in normal time by the total number of students who completed the program for that time frame. The on time graduation rate is graduating within the normal time frame. Students that graduate on time have not taken a leave of absence, did not deviate from their program and did not repeat a quarter of training.
